

AIR BARRIERS FOR PROFESSIONALS: ONLINE TRAINING

Canadian contractors and building professionals can take advantage of the new course created in partnership by NAIMA Canada and Building Knowledge course to learn practical building skills.

It's a free, online, and self-paced course.

Air Barriers for Professionals is practically oriented information for residential construction workers and renovators who deal with air tightness, insulation, and various control barriers to improve the energy efficiency of homes.

The training focuses on:

- Renovation & Retrofit
- Basics of Building Science
- Air Barrier Building Code
- Air Barrier Types
- Openings & Penetrations
- Blower Door Testing
- Typical Air Barrier Details for high performance builds and retrofits
